With the active participation of academicians and stakeholders in the conference, it has now become an authoritative and analytical source for making policy recommendations on higher and technical education in the state. The ensuing Conference is going to be more important than ever before as the State Govt. envisages to make a massive expansion of Higher Education during the 12th Five Year Plan by establishing 6 Model Degree Colleges, 10 Polytechnics including 3 under PPP mode and 3 Private Universities besides a number of Private Technical / Professional institutions. As such, a proper perspective plan is required to ensure both quality and quantity expansion of higher education. The conference is expected to deliver on this.
