- ✓ Candidates may take a printout (hard copy) of the registration form containing the above personal data. It is solely the responsibility of the candidates to verify that their personal data, including category, subcategory, state of eligibility, gender etc. are consistent with documentary evidence.
- ✓ If the personal data submitted / entered by a candidate is found to be incorrect at the time of verification of certificates either during reporting or at any later stage, the allotment of seat/provisional admission is liable to be cancelled. **Online Choice Filling, Saving and Locking**

At this stage, all the registered candidates and who have valid Rank are required to fill their choices of branches and institutes in order of their preference. The detailed procedure is as follows:

- The procedure for filling choices and seeking pertinent information is guided through appropriate messages, pop-ups and tabs on the computer screen. Candidate must ensure that the pop-ups are enabled on their internet browser.
- All choices (available seat information for the related category) like institutes, disciplines (Engineering/Technology and Architecture), branches (e.g., Electronics Engineering, Computer Science, etc.) will be displayed.
- Candidates can, and should, fill in as many number of choices in the order of their preference from the list of available seats.
- Candidates are permitted, if they so desire, to change or re-order their choices, delete or edit earlier choices and add new choices any number of times until they lock their final choices. Choices should be positively locked before the scheduled date.
- Choices once locked cannot be edited/altered.

**Locking of the Choices**

- Candidates MUST lock their choices only after they have finalized them but, within the scheduled date and time. The locking of choices involves a few steps after the LOCK button is clicked. This includes entering the password, confirming the locking, entering OTP through text or mail etc. Candidate should follow all the steps carefully to complete the locking procedure.
- After the choices are locked, candidates will not be able to change their choices any further. A printable version of the choices along with the terms and conditions agreed by the candidate at the time of registration will be displayed once the choices are

locked.

- If a candidate fails to explicitly lock his/her choices before scheduled date and time, his/her last saved choices will be automatically locked after the deadline. Candidates are therefore strongly advised to lock their choices themselves and secure a printout of these locked choices. Registered candidates who do not fill any choices or fail to save them even once will not be considered for admission and seat allotment. Candidates can login again after locking the choices; the locked choices will be displayed but cannot now be modified or altered.

Note: 'SAVING' a choice is NOT the same as 'LOCKING' a choice. A choice that is only saved but not locked, can be retrieved later on and modified. The modified choice has to be saved again and the previously filled choices will be lost once the new choices are saved. But a choice that is locked cannot be modified again.

### Seat Allotment

During this step, the choices submitted by the candidates will be processed centrally and seats will be allotted in the order of merit, availability of seats as per the Reservation Policy of the State for a particular category and on the basis of the locked choices. The allotment result will be available on the website: [www.apdhte.nic.in](http://www.apdhte.nic.in). Candidates should take a printout of the allotment details from website.

### Allotment Policy

As per the allotment policy seat allotment will be done in two rounds. In the first round, the seats will be allotted to the candidates and the result containing the institute and the branch allotted will be available on the website. In the second round, seats will be allotted against the available vacancies at the end of first round and the results will be available on the web site. In the second round, no fresh registrations or choice filling will be permitted; registered candidates will not be allowed to alter or resubmit their choice. Therefore, all candidates are advised to carefully fill in their choices in the first round itself.
